

Cascadia Classifier User Interface Navigation Instructions

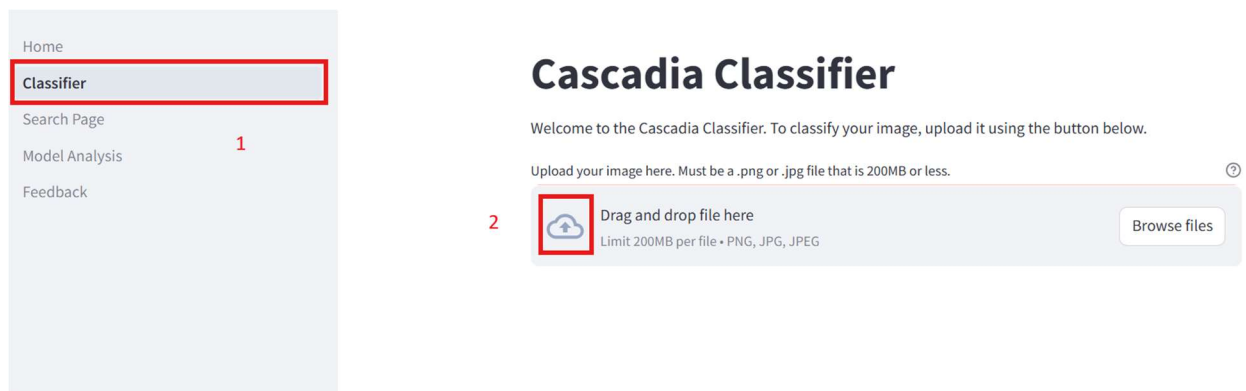

Overview

The user interface consists of 5 pages. Below are the pages and the major uses of each.

- *Home* – Learn more about the objective of the tool and the background of the authors
- *Classifier* – Upload a landmark and view classification results
- *Search Page* – Determine whether a landmark is within the model dataset
- *Model Analysis* – Learn about how the classifier model was built and its performance metrics
- *Feedback* – Submit a form to provide feedback such as a Washington landmark missing from the dataset or an incorrect classification

Use Case 1 – User wants to upload photo and view results

1. Navigate to the “Classifier” page
2. Click on the cloud to browse for a file on your computer.

3. Once an image is attached, the model will automatically start working to classify the image.
4. User views results output below image submission widget. The image submitted is displayed below the landmark results.
 - a. When confidence is greater than 50% for the top class, only one landmark is returned.

Results

Our prediction:

1. Drumheller Fountain (97.44% confidence)

Location: University Of Washington, Seattle, King County, Washington, Pacific Northwest, Washington, Pacific States Region

Category: Fountain

Your image:

- b. When confidence is below 50% for the top class, the top five landmarks are returned.

Results

Our prediction:

1. Historic Chinatown Gate (Seattle) (19.30% confidence)

Location: Chinatown-International District, Seattle, King County, Washington, Pacific Northwest, Washington, Pacific States Region

Category: Paifang

2. Colman Building, Seattle (15.99% confidence)

Location: Washington, Pacific Northwest, Washington, Pacific States Region

Category: Building

3. Sorrento Hotel (8.70% confidence)

Location: Washington, Pacific Northwest, Washington, Pacific States Region

Category: Hotel

4. International District, Seattle, Washington (4.25% confidence)

Location: Seattle, King County, Washington, Pacific Northwest, Washington, Pacific States Region

Category: Historic District

5. Washington State University (3.51% confidence)

Location: Pullman, Whitman County, Washington, Pacific Northwest, Washington, Pacific States Region

Category: Public University

Use Case 2 – User wants to determine whether a landmark is in the list of ones the model can identify

1. Navigate to the “Search Page”
2. Enter the name of a landmark.

3. Search results depend on the option below:
 - a. If the text entered is an exact match for a landmark name in the model, the landmark name, category, location, and a map are displayed.

Washington Landmarks Search

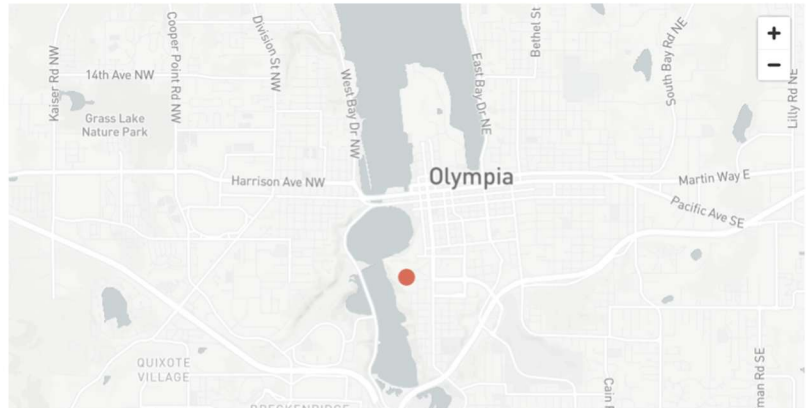

Search for a landmark by name

Washington State Capitol

Washington State Capitol

Category: capitol building

Location: Olympia, Thurston County, Washington,
Pacific Northwest, Washington, Pacific States Region

- b. If the text entered is a partial match for a landmark name in the model,
possible landmark names are displayed as buttons.
 - i. Click a button to get the results of a full match as described in 3a.

Washington Landmarks Search

Search for a landmark by name

capitol

Did you mean:

Capitol Lake

Capitol Theater (Olympia, Washington)

Old Washington State Capitol

Washington State Capitol

- c. If the text entered is not a match for a landmark name in the model, the result
is no match.

Washington Landmarks Search

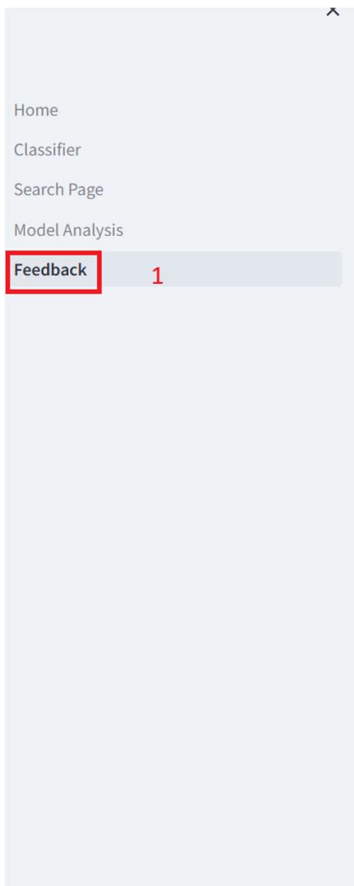

Search for a landmark by name

Fremont Library

No landmarks found. Try another search.

Use Case 3 – User leaves feedback on missing landmark

1. Navigate to the “Feedback” Page
2. Fill out the feedback form.
3. Click submit.

What landmarks are we missing? Did we misclassify your landmark? Let us know! Please fill out the form below to let us know what we can do to improve. If you have an image of a misclassified or missing landmark, please include it in the form.
